

REMARKS

Reconsideration in view of the foregoing amendments and following remarks is respectfully requested.

The new drawing FIG. 6 does not introduce any new matter. Please refer to the subject matter in the specification, as all of the claimed subject matter is disclosed in the specification, the drawing, and the previous patent.

The amendments to the specification were made at the request of the Examiner. No new matter has been added.

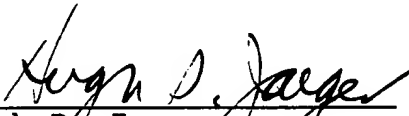

New claims 3, 4 and 5 have been added to describe the air-bag shock absorber and the combination of the shock absorbers with the motorcycle frame, as depicted in FIG. 6, which was previously described in the verbiage in the specification, and accompanied by the new drawings, which do not add any new matter. This subject matter is allowable over the cited art references of record, and the patent application should now be allowed.

If there are any further issues yet to be resolved to advance the prosecution of this patent application to issue, the Examiner is requested to telephone the undersigned counsel.

Reconsideration and allowance is respectfully requested.

Respectfully submitted,

HUGH D. JAEGER, P.A.
